

# Analyzing the Use of Technology to Power Diplomacy

Project Title	Analyzing the Use of Technology to Power Diplomacy
Project Summary	Collect and analyze data about how technology is used in U.S. diplomatic posts overseas to power diplomacy, including software, mobile devices,
Country	Germany
Agency	Department of State
DoS Office	N/A
Post	FRANKFURT
Section	Other
Number of Interns	3

## Project Description

You will collect data on how U.S. diplomats and support staff use technology to accomplish the work of diplomacy throughout the European region. You'll then analyze the data to look for trends and opportunities to better leverage technology to improve process and effectiveness in meeting strategic goals. The final deliverables will include written reports, supporting data, infographics and other support materials senior government officials need to make decisions on the innovative use of technology.
